**DETAILED ACTION**

***Acknowledged Receipt***

1. Receipt is acknowledged of the changes to the claims and remarks, all of which were filed on January 26, 2004. The above have been considered and entered.

***Allowable Subject Matter***

2. Claims 1, 7-11, 13-30, 34-44 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:
4. The prior art of record discloses a fuse similar to Applicant's mean for preventing overheating. See for example the cited references in the previous office actions, and especially U.S. Patent 4,205,258 to Ward. However, Ward's fuse is provided on a lead wire of an HID lamp, and does not anticipate Applicant's amended independent claims. The prior art of record fails to motivate or disclose a fluorescent lamp with a means for preventing overheating provided with a glass member and a first and second metallic pin for supporting the glass member, the first and the second metallic pin being provided not in contact with each other, the respective ends of the pins are connected to the lead wires, respectively, the other end of the first and second metallic pin being projected from the glass member or positioned therein, and the other metallic pin is wound around the glass member with the outer end positioned in the glass member so as to be spaced apart from the other metallic pin via the glass member, the other metallic pin extending through a substantially annular portion of the wound metallic pin.
5. Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

Art Unit: 2875

issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."
